Good

Dear Mr. Rocca:

Enclosed is the passport file on Waldemar Boris Kara-patnitsky, a Secret Service Memorandum to J. Lee Rankin dated August 7, 1964 and carrying Secret Service No. 1720 and a Secret Service Memorandum dated August 5, 1964 by Special Agents Thomas and Wong. The two Secret Service reports concern the same Mr. Kara-patnitsky.

I have enclosed a fairly legible copy of a letter from J. Lee Rankin to the Secret Service describing the work we asked the Service to do in respect to this problem in connection with two other persons who might have related to it. The Secret Service investigation has since shown that these two individuals know nothing about our subject, but I have enclosed the letter anyway for your general information. I draw your attention especially to the reference to the Intourist guide and her allegedly frequent visits to the subject. This might be a fact which would joggle the memory of Mr. Kara-patnitsky.

Good luck in tracing this down. Please keep me informed of developments, by telephone or any other convenient method.

Sincerely,

W. David Slawson
